InfoTrends is pleased to announce dates for our 6th Annual Digital Imaging Conference taking place September 19-20, 2007 at the Hyatt Regency SFO Airport in Burlingame, CA.

Conference Program:

Digital Imaging '06 addressed key topics that are now generating considerable attention both within the industry and beyond. The 2007 conference program will build upon previous research, deliberations, debates, and discussions, focusing again on how the industry can address market and technology challenges as we move along the path towards ubiquitous image access.

Our roster of 30+ speakers offers up actionable content as they evaluate real-time market changes as they are occurring. A carefully crafted blend of speakers for each session provides the balanced perspective needed to examine each topic from all angles.

Speakers in the past have included highly-respected industry leaders such as Adobe, Canon, HP, Kodak, Microsoft, Panasonic, Pictage, Simple Star, Target, Visan RocketLife, Wal-Mart, and Yahoo.

Networking:

Digital Imaging '07 will provide attendees with networking opportunities to create and strengthen relationships with a wide variety of imaging companies from across the entire industry spectrum. Our audience from years past has consisted of representatives from virtually every corner of the imaging universe, and our high percentage of repeat attendees has truly made this an annual gathering place of forward-thinking DI executives.

To find out more about becoming a sponsor or exhibitor contact Matt O'Keefe at 781.616.2100 ext. 115 or via email at matt_okeefe@infotrends.com.
