Table of Contents

Methodology	6
Executive Summary	6
<i>U.K. Healthcare Trends</i>	7
<i>German Healthcare Trends</i>	7
<i>French Healthcare Trends</i>	8
<i>Healthcare Professional Trends</i>	8
Qualitative Research Summary	9
<i>Workflow Mapping</i>	9
Key Workflow Processes	9
<i>Process 1: Pre-admission/Admissions</i>	10
Potential Manual/Paper-based Processes	10
Assumptions	10
<i>Process 2: Procedure</i>	11
Potential Manual/Paper-based Processes	11
Assumptions	11
<i>Process 3: In-patient/Out-patient Recovery</i>	12
Potential Manual/Paper-based Processes	12
Assumptions	12
<i>Process 4: Discharge</i>	13
Potential Manual/Paper-based Processes	14
Assumptions	14
<i>Process 5: Billing Revenue Cycle Management</i>	14
Assumptions	15
Insights from the European Healthcare system	16
<i>Healthcare Systems by Country</i>	16
France	16
Germany	17
United Kingdom.....	18
Country Healthcare Comparisons.....	19
<i>Healthcare Automation Initiatives</i>	20
France	20
Germany	21
United Kingdom.....	22
Quantitative Results	23
<i>Demographics</i>	23
<i>Process 1: Pre-admission/Admissions</i>	29
Equipment Used	29

Admissions Document Tracking	30
Information Collected During Pre-admissions	31
Information Collected During Admissions.....	32
Information Submitted by Associated/Affiliated Physicians	33
Information Submitted by Non-associated/Non-affiliated Physicians	34
Information Submitted by Internal Hospital Departments	35
Submission of Admitting Information by Patients	36
How Submitted Documents are Compiled	37
<i>Process 2: Procedure</i>	38
Method of Providing Patient Information.....	38
How Coding for Billing is Documented for a Procedure	39
How Surgeons/Specialists Document their Procedures	40
<i>Process 3: In-patient/Out-patient Recovery</i>	41
How a Patient's Information/Records are Accessed	41
How Devices are Shared for Accessing Patient Records.....	42
How Shift/Patient Instructions are Provided to Nurses.....	43
How Many Staff Members on the Recovery Area/Floor.....	44
How Information is Recorded into the Patient Record	45
How Doctors' Follow-up Work Orders Are Created	46
How Information or Clarification is Provided Regarding Coding/Billing Items	48
How Other Processes are Recorded into the Patient File/Record	49
<i>Process 4: Discharge</i>	50
How Patient Discharge Orders are Tracked and Recorded.....	50
How Doctors Commonly Create Follow-up Discharge Work Orders	51
How Records are Provided to Patients When Transferred or a Copy is Requested.....	52
How Home Care Instructions are Provided to the Patient	53
<i>Process 5: Billing Revenue Cycle Management</i>	54
Coding Standard Facilities are Using.....	54
How Coding is Connected to the EMR/EHR System	55
Patient Case Billing	56
Declined Claims	57
Declined-claims Investigation Tracking	58
<i>Business Process Automation Opportunities</i>	59
Devices Used for Capture/Scan.....	59
How Many Print Devices	60
Importance of Care Objectives	61
Time-intensiveness of Various Processes	62
Level of Automation.....	63
Improvements through Automation.....	64
Barriers to Automation	67
Conclusions and Recommendations	68
<i>Opportunities for Automation</i>	68
Admissions	68
Procedure	68

Recovery (In-patient/Out-patient)69
 Discharge70
 Revenue Cycle Management/Coding & Billing70
Healthcare Objectives, Automation ROIs, and Barriers.....72
Recommendations.....72
 Appendix: Healthcare Industry Solutions.....74
EMR/EHR Active in the U.K......74
EMR/EHR Active in France76
EMR/EHR Active in Germany77

List of Figures & Tables

Figure 1: Key Paper-intensive Processes for Healthcare9
 Figure 2: In-Patient Admissions Workflow10
 Figure 3: Outpatient Procedure and Post-Procedure Workflow.....11
 Figure 4: In-Patient Recovery12
 Figure 5: In-Patient Discharge.....13
 Figure 6: In-Patient Discharge14
 Figure 7: Business Process Automation Opportunities for Healthcare.....15
 Table 1: Healthcare Indicators (per 100,000 Inhabitants)20
 Figure 8: What best describes the location where you primarily work?23
 Figure 9: Which best describes your position/role within your facility?24
 Figure 10: What is the main area of a hospital, surgical centre (outpatient), clinic, or ER environment in which you work?25
 Figure 11: Which of the following devices do you use in your position?26
 Figure 12: Does your facility utilise an electronic medical/health records (EMR/EHR) system?27
 Table 2: What is the name of your EMR/EHR system?28
 Figure 13: Which of the following devices do you use in your position?29
 Figure 14: How do you keep track of documents that have been, or still need to be, collected from the patient?30
 Figure 15: What type of information do you collect during the pre-admittance stage?31
 Figure 16: What type of information do you collect during the admitting stage?32
 Figure 17: How do associated/affiliated physicians most commonly send admitting information?33
 Figure 18: How do non-associated/non-affiliated physicians most commonly send admitting information?34
 Figure 19: How do internal hospital departments most commonly send admitting information?35
 Figure 20: How do patients most commonly submit the following admitting information?36
 Figure 21: How do you compile these documents once received from the various sources?37
 Figure 22: During a procedure, what percentage of patient information provided to surgeons/specialists for reference, is in the following formats?38
 Figure 23: How is coding for billing completed for a procedure that has been documented?39
 Figure 24: Please select the most common way in which surgeons/specialists document their procedures once they have been completed.40
 Figure 25: When caring for the patient during recovery, what method do you use to refer to the patient’s information/records?41
 Figure 26: Are the devices you use for referring to a patient’s records shared, or does each staff member have their own device?42
 Figure 27: How are nurses’ shift instructions/patient instructions provided to nurses?43
 Figure 28: How many people (nurses and supporting staff) work in your recovery area/floor?44

Figure 29: What is the most common way in which patients' vitals are recorded into the patient record?	45
Figure 30: For doctors who are on-site at the surgical facility what is the most common method in which they create follow-up work orders?	46
Figure 31: For doctors who are away from the surgical facility what is the most common method in which they create follow-up work orders?	47
Figure 32: If the coding/billing department needs more information/clarification regarding an item recorded in the system, how is it typically provided?.....	48
Figure 33: What is the most common way in which other processes (e.g., rehabilitation, diet) are recorded into the patient file/record?	49
Figure 34: How are patient discharge orders tracked and recorded into the patient record system?	50
Figure 35: What is the most common way in which doctors create follow-up discharge work orders for their patients?	51
Figure 36: If a patient requires his/her patient records to be transferred or requests a copy during discharge, how is this provided to the patient?	52
Figure 37: How are a patient's home-care instructions selected and provided to the patient?	53
Figure 38: What coding standard is your system currently using?	54
Figure 39: Is your coding system automatically connected with your EMR/EHR system to allow for automation?	55
Figure 40: On average, what percentage of your patient cases is billed to the following people/places?	56
Figure 41: What are the most typical reasons for claims to be declined?	57
Figure 42: How are these research investigations tracked?	58
Figure 43: What types of devices do you use to capture/scan paperwork for each of these processes?	59
Figure 44: What types and how many copy/printing devices do you have in your area? (Mean)	60
Figure 45: For your organisation, how would you rate the importance for each of the following goals and objectives? (Mean).....	61
Figure 46: Please rate how time/resource intensive each of these processes are? (Mean).....	62
Figure 47: How would you rate the level of automation for each of these processes? (Mean)	63
Figure 48: For the processes you feel you have been able to highly automate, what are some of the improvements you have seen?	64
Figure 49: What is the percentage of improvement you have seen?	65
Table 3: To what degree would you agree that processes could be improved with additional technology? (Mean)	66
Figure 50: Please rate how you agree or disagree with the following "barriers" that slow down processes? (Mean).....	67
Figure 51: Automation vs. Time Intensity	71
Figure 52: Healthcare Business Process Automation Opportunities	71
