Technology is rapidly changing how we create and publish documents, collaborate within our organizations, interact with our customers and suppliers, and most importantly, how we conduct business. The exchange of information for commerce or other purposes requires support for dynamic content. It is imperative for software vendors to develop their offerings in “Web-time” schedules and plan their market positioning and targets strategically.

To help you prosper in this environment, InfoTrends offers the **Dynamic Content Software Strategies Consulting Service**. This service provides executives and senior managers with the information and advice they need to outpace the competition and thrive in this dynamic marketplace. It offers:

- Year-round support for your marketing, product planning, product development, and strategic development decisions
- Continuous information flow with daily, weekly, monthly, quarterly, and annual deliverables
- Unlimited inquiry access to experienced staff
- Online access to published deliverables 24 hours a day
- Regularly scheduled Webcasts that discuss industry trends and developments

The **Dynamic Content Software Strategies Consulting Service** provides a hierarchy of powerful knowledge tools, from syndicated market information to customized, proprietary consulting. Our consultants will help you grow your business by supplying you with insight geared to your specific challenges and goals.

Deliverable Topics Include:

- Content Management Forecast
- Vertical Market Briefs
- XML Content Management
- Document Management Market Segments
- BPM Approaches
- Media & Entertainment Industry Profile
- Knowledge Management Initiatives
