Abstract

This analysis highlights the key findings of InfoTrends' *Russia Production Print Study in 2008*. It provides a high-level overview of the market; a number of establishments; and a more in-depth view of what a Russian print operation looks like in terms of equipment, size, print applications, pricing, and more. The analysis concludes with an updated view on how the Russian market is performing given the major impact of the economic crisis on Russia's economy.
